PROFESSIONAL SUMMARY

I am a 2nd-year student at Newton School of Technology with experience in Multi-Agent Models and System Design. I have strong Business Analytical skills and am pursuing a minor in Psychology. I also enjoy Volunteering and Organizing Events, and I play Volleyball for my College team.

EDUCATION

Bachelor of Engineering (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 6.743/10.0
Intermediate (Class XII)	2022 - 2023
BKSKI COLLEGE GARHPURA	Grade: 68.8%
Matriculation (Class X)	2020 - 2021
DAV PUBLIC SCHOOL	Grade: 76.5%

PROJECTS

Blinkit*Data Analysis*([Github](#))([Demo](#)) April 2026

- **Tech Stack:** Python (Pandas, Scipy, Statsmodels), Tableau, Jupyter, Matplotlib, Seaborn, GitHub
- **Description:** Engineered a behavioral economics framework to quantify impulse-buying triggers across 13,000 SKUs and 10 cities, decoding the "convenience premium" architecture of India's quick-commerce sector (Blinkit).
- **Features:** Automated ETL pipeline with composite impulse-proxy scoring, statistical validation (Welch t-tests, ANOVA, Kruskal-Wallis) for pricing elasticity, and a 4-page interactive Tableau suite for executive-level category drill-downs.
- **Impact:** Identified a 6x price-per-gram premium on small-pack formats and a 21.6% impulse revenue share, facilitating a strategic shift from generic discounting to high-leverage assortment and margin optimization.

E-Commerce Customer Behavior Analysis ([Github](#)) February 2026

- **Tech Stack:** Microsoft Excel (Advanced), Pivot Tables, Power Query, Data Visualization, Descriptive Statistics, Data Preprocessing.
- **Description:** Developed a comprehensive e-commerce customer behavior analysis framework to identify engagement patterns and churn drivers across a dataset of 50,000+ global customer records.
- **Features:** Strategic data cleaning using business-logic-driven median imputation, multi-dimensional demographic and geographic segmentation, customer lifetime value (CLV) analysis, and interactive dynamic dashboards for real-time insight generation.
- **Impact:** Pinpointed critical churn predictors—specifically correlating low session duration and high cart abandonment with customer attrition—enabling data-driven retention strategies to optimize platform engagement and revenue growth.

CERTIFICATIONS

Paranox 2.0 Volunteering TechXNinjas ([Link](#)) November 2025

- Received a certificate for organizing *Paranox 2.0* (Tech x Ninja), where I contributed to event logistics, participant coordination, and on-ground execution, requiring strong teamwork, communication, and problem-solving skills.

SKILLS

Computer Languages: Machine Learning, Python, TypeScript, JavaScript, SQL

Data Tools: NumPy

Software Packages: Pandas, Matplotlib, Next.js, Node.js, Excel, MongoDB

Additional Courses: Data Structure

Soft Skills: Written communication, Leadership, Team Building, Teamwork, Critical Thinking, Presentation Skills, Communication Skills

Others: Spreadsheet, LLM, Generative AI, Analytics, LangChain, GenAI, LangGraph, Hugging Face, Tableau

EXTRA-CURRICULAR ACTIVITIES

- Volleyball
- Solving different Rubix puzzles
- Cricket
- Swimming
- Basketball
